

Not water.

Not wind.

Not dirt.

Not heat.

Nothing keeps our Hall Effect  
products from getting the job done.

**HALL EFFECT OVERVIEW:**

- Dusttight to IP64 and/or Watertight to IP68
- Provide up to 15 million cycles depending on the device
- Variety of mounting options/button styles
- Linear output pushbutton switches
- Proportional output thumbwheel switches
- J1939, PWM and CAN communication protocols available

OTTO's Hall Effect devices have earned a reputation for exceptional reliability and long life expectancy. Resistant to dust and water, they're immune to the harshest conditions. You can count on these devices to get the job done. We've put all our expertise into designing and crafting equipment you can rely on. And we put it to the test over and over again so it will not fail you.
